DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Greenberg on 4/21/2008. The application has been amended as follows:

Claims 1-2 and 11-36 have been cancelled.

In line 1 of claim 3, "f(first" should read – first –.

Allowable Subject Matter

2. Claims 3-10 are allowed over prior art of record. The following is an examiner's statement of reasons for allowance: Roberge et al. (US Patent Publication No. 2002/0111932) disclose a method of rearranging a first hierarchical menu in a voice portal directory, the first hierarchical menu having one or more layers and a plurality of nodes, the plurality of nodes including one or more non-terminal nodes, each having one or more lower nodes, and a first number of terminal nodes (*referring to figure 1*), said method comprising the step of generating a second hierarchical menu having only

a first layer, the first layer having an initial set of nodes identical to the first number of terminal nodes (*figure 1*). Roberge et al. fail to specifically disclose the steps of: reading a predetermined limit; comparing the first number with the predetermined limit; replacing, if the first number exceeds the predetermined limit, a first set of nodes in the first layer with a first replacement non-terminal node and connecting the first set of nodes as terminal nodes to the first replacement non-terminal node, the first replacement non-terminal node being the one of the non-terminal nodes in the first hierarchical menu having terminal nodes identical to the first set of nodes. Furthermore, it would have not been obvious to one of ordinary skill in the art at the time of invention to modify Roberge et al. in order to obtain the claimed invention. Therefore, claims 3-10 are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
